### Facts:

The Fox Theatre was a St. Louis jewel when it opened to rave reviews in 1929. Built in an exotic Siamese-Byzantine style, the movie theatre cost nearly \$5 million to complete. It became an even more integral part of the St. Louis landscape after its \$2 million restoration by Mary and Leon Strauss in 1981.

Restored to its original grandeur, the Fabulous Fox is today the destination for many Broadway musicals, as well as concerts, tours and special events, and is more successful than at any other time in its history.

Anders Minkler & Diehl LLP has served as the theatre's independent accountants since 1965. One of AMD's founding partners provided the accounting services prior to formation of the firm.

Over the years, AMD has provided tax and audit services, as well as business advisory assistance.
