Profile

Chastity is a member of AMD's Health Care Service Team. Her 17-year health care career includes hospital, physician and payer segments of the industry. Chastity services hospital and physician clients, with emphasis on physician revenue cycle improvement. Having experienced total EHR/PMS implementation firsthand, she is a valuable resource in this area.

Cash flow generated through the physician revenue cycle is critical to the financial viability of medical practices. Chastity brings comprehensive revenue cycle experience to her clients, from patient access through reporting and benchmarking. She also has extensive knowledge in analysis provided through experience in claims processing within the insurance segment of the industry.
